Education

B.S. Computer Science (August 2022 - June 2026)

- University of Washington, Seattle, WA
- GPA: 3.52

Work/Volunteer Experience

Front Desk Student Assistant Lead (July 2023 - Present)

- University of Washington Department of Electrical and Computer Engineering
- Managed conference rooms, calendars, mailboxes, package shipments, appointments, and building access for a department of 1,300+ students, faculty, and staff
- Updated 80-page Front Desk Manual to ensure accuracy of all processes and procedures
- Participated in recruitment, hiring processes, and training for new Front Desk vacancies and openings

Front End Clerk (December 2021 - September 2022)

- Town and Country Market Ballard
- Assisted 50-150+ customers a day while ensuring workspace cleanliness
- Trained 5 new employees to proficiency and helped support other departments

Volunteer Teacher (March 2021- May 2022)

- OpenBrackets Coding
- Taught introductory Python courses to 50+ students (elementary-high school) from low-income areas in Seattle and the greater Bay Area over Zoom
- Developed and revised semi-weekly course curriculum for 6-8 week classes based on student feedback and personal observation

Projects

Husky Hustlers (September 2024 - December 2024)

- Project for CSE 403 - Software Engineering
- Created a website for UW students to post and discover student-run services and businesses
- Developed a React front end and TypeScript back end, connected to a MySQL database for managing user, shop, and product data
- Leveraged Google OAuth 2.0 for user login and Microsoft Azure for database hosting

Digital Punchcard App (June 2024 - August 2024)

- Personal Project
- Created a digital punchcard app on iOS for a local business and its customers
- Utilized Expo Go and React Native for the app front end, connected to a Firebase backend using Python to store user data
